Overview: The Hudson's two-story foyer with open staircase makes an inviting first impression, as does the vaulted ceiling over the large family room. The open floor plan continues in the kitchen and dining area with wrap around center island, creating a great environment for casual entertaining and family get togethers. A private living room, bedroom, full bath, and separate utility room round out the first floor. The second floor offers a master suite and spacious loft area that overlooks the family room!

Notes: All floor plans can be customized to fit your needs. We design and construct the modular to your specifications. Elevations may include additional builder construction such as porches, garages, decks, etc.
